

2002 Periodic Emissions Inventory
for
 PM_{10}

for the

Maricopa County, Arizona, Nonattainment Area

June 2004

Revised March 2006

This emissions inventory has been prepared by:

Bob Downing

Dena Konopka

Matt Poppen

Eric Raisanen

Maricopa County Environmental Services Department

1001 N. Central Ave. Suite 250

Phoenix, AZ 85004

Ruey-in Chiou

Steve Ochs

Roger Roy

Maricopa Association of Governments

302 N. 1st Ave. Suite 300

Phoenix, AZ 85003

with additional contributions and/or review by:

Randy Sedlacek

Peter Hyde

Arizona Department of Environmental Quality

1101 W. Washington St.

Phoenix, AZ 85007

Bob Farrell

Pima County Air Quality Control District

P.O. Box 987

Florence, AZ 85232

Alison K. Pollock

Cuong Tran

Christian Lindjhem

Gerry Mansell

101 Rowland Way

Novato, CA 94945

Table of Contents

1. Introduction	1
1.1 Overview.....	1
1.2 Agencies responsible for the emissions inventory.....	1
1.3 Temporal scope.....	2
1.4 Geographic scope.....	2
1.5 Overview of local demographic and land-use data.....	3
1.5.1 Demographic profile	3
1.5.2 Land-use data.....	3
1.6 Emissions overview by source category.....	4
1.6.1 Point sources	4
1.6.2 Area sources.....	5
1.6.3 Nonroad mobile sources	5
1.6.4 Onroad mobile sources	6
1.6.5 Biogenic sources	7
1.6.6 Summary of emissions by source category.....	7
1.7 References.....	14
2. Point Sources	15
2.1 Introduction and scope.....	15
2.2 Identification of point sources	16
2.3 Procedures for estimating emissions from point sources	20
2.3.1 Sources with air quality permits issued by Maricopa County Environmental Services Department (MCESD).....	20
2.3.1.1 Calculation of PM _{2.5} emissions.....	21
2.3.1.2 Application of rule effectiveness	21
2.3.1.3 Example 1: United Metro Materials Plant #11	22
2.3.1.4 Example 2: 23rd Ave. Wastewater Treatment Plant	22
2.3.2 Sources with air quality permits issued by Pinal County Air Quality Control District.....	23
2.4 Detailed overview of point source emissions	23
2.4.1 Point source emissions by geographic location	23
2.4.2 Point source emissions by process type	27
2.5 Emission reduction credits.....	35
2.6 Summary of point source emissions	35
2.7 Quality assurance / quality control procedures.....	36
2.7.1 Emission survey preparation and data collection.....	36
2.7.2 Submission processing.....	37
2.7.3 Analysis of annual point source emissions data for this inventory.....	37
2.8 References.....	38
3. Area Sources	39
3.1 Scope and methodology.....	39
3.2 Fuel combustion.....	40
3.2.1 Industrial natural gas.....	41

3.2.2 Industrial fuel oil.....	42
3.2.3 Commercial/institutional natural gas	44
3.2.4 Commercial/institutional fuel oil	45
3.2.5 Residential natural gas	47
3.2.6 Residential wood combustion.....	47
3.2.7 Residential fuel oil	49
3.2.8 Summary of all area-source fuel combustion	49
3.3 Industrial processes.....	50
3.3.1 Chemical manufacturing.....	50
3.3.2 Food and kindred products.....	52
3.3.2.1 Commercial cooking.....	52
3.3.2.2 Grain handling/processing	53
3.3.2.3 Ammonia cold storage.....	54
3.3.3 Secondary metal production	54
3.3.4 Non-metallic mineral processes.....	55
3.3.5 Mining and quarrying	56
3.3.6 Wood product manufacturing	57
3.3.7 Rubber/plastics manufacturing	58
3.3.8 Fabricated metal products manufacturing.....	60
3.3.9 Construction.....	61
3.3.10 Electrical equipment manufacturing	63
3.3.11 State-permitted portable sources.....	65
3.3.12 Paved/unpaved road travel on industrial sites.....	66
3.3.13 Industrial processes not elsewhere classified (NEC)	67
3.3.14 Summary of all area-source industrial processes.....	68
3.4 Waste treatment and disposal	69
3.4.1 On-site incineration.....	69
3.4.2 Open burning	70
3.4.3 Landfills	72
3.4.4 Publicly owned treatment works (POTWs)	73
3.4.5 Other industrial waste disposal	73
3.4.6 Summary of all area-source waste disposal.....	74
3.5 Miscellaneous area sources.....	74
3.5.1 Other combustion.....	74
3.5.1.1 Wildfires and brush fires	74
3.5.1.2 Structure fires.....	76
3.5.1.3 Vehicle fires.....	77
3.5.1.4 Engine testing	78
3.5.2 Agricultural crops	78
3.5.2.1 Tilling	78
3.5.2.2 Harvesting.....	83
3.5.2.3 Cotton ginning	85
3.5.2.4 Fertilizer application.....	85
3.5.3 Livestock.....	86
3.5.4 Health services: crematories	87
3.5.5 Accidental releases.....	88
3.5.6 Humans	89

3.5.7 Windblown dust.....	89
3.5.8 Summary of all miscellaneous area sources	90
3.6 Summary of all area sources.....	91
3.7 Quality assurance / quality control procedures.....	94
3.8 References.....	95
4. Nonroad Mobile Sources.....	99
4.1 Introduction.....	99
4.2 Agricultural equipment.....	101
4.3 Airport ground support equipment	102
4.4 Commercial equipment.....	103
4.5 Construction and mining equipment.....	104
4.6 Industrial equipment	104
4.7 Lawn and garden equipment.....	105
4.8 Logging equipment.....	106
4.9 Pleasure craft	106
4.10 Railway maintenance equipment.....	107
4.11 Recreational equipment	108
4.12 Aircraft.....	108
4.13 Locomotives	112
4.14 Summary of all nonroad mobile source emissions	113
4.15 Quality assurance procedures	114
4.16 References.....	114
5. Onroad Mobile Sources	115
5.1 Introduction.....	115
5.2 VMT estimation procedure.....	116
5.3 Speed estimation procedure.....	119
5.4 Monthly VMT factors.....	120
5.5 Emission factor estimation procedure	121
5.5.1 Emission factor model	121
5.5.2 Development of MOBILE6.2 model inputs.....	123
5.5.3 Model outputs	128
5.5.4 Summary of emission factors.....	128
5.5.5 Emission estimates.....	128
5.6 Summary of particulate emissions from onroad mobile sources.....	169
5.7 Quality assurance process	179
5.7.1 VMT estimates.....	179
5.7.2 Emission factor estimates	179
5.7.3 Quality review of 2002 draft particulate matter emissions inventory.....	180
5.8 References.....	180
6. Biogenic Sources	181
6.1 Introduction and scope.....	181
6.2 Modeling domain adjustments.....	181
6.3 Land-use categories	182

6.4	Derivation of emission factors.....	183
6.5	Meteorological inputs	185
6.6	Summary of emissions from biogenic sources	186
6.7	References.....	186
